

ZXQ-5 Automatic Metallographic Sample Mounting Press

Features and Applications:

1. Used to set up irregular specimen so that it can fix in with the request of the surface.
2. It also can protect the edge and keep out of the abrasion.
3. It is an automatic mounting press for metallographic specimen. Suitable for all thermosetting materials because of the cooling system
4. It can finish automatically with the heating temperature, the holding time, and acting force.
5. The operator can change 4 specification patterns according to the difficult specimen.
6. It can make 2 specimens at one time.

Specification:

| | |
|-----------------------|-----------------------------|
| Specification of Die | φ 25mm φ 30mm φ 40mm φ 50mm |
| Power supply | 220V 50HZ |
| Max Power Consumption | 1600W |
| System Pressure | 0~2Mpa |
| Sampling Pressure | 0~72Mpa |
| Temperature | 0~300°C |
| Heat Holding Time | 0~99 min&99 sec. |

ZXQ-5 Automatic Metallographic Sample Mounting Press

| | |
|-----------------|---------------|
| Dimensions | 615*510*500mm |
| Weight | 110Kg |
| Type of Cooling | Water-cooled |
